RAIL SAFETY PETITION
ORGANISED BY PADDINGTON SURVIVORS GROUP

We the undersigned, do respectfully petition Her Majesty's Government to act immediately to ensure that:

• SAFETY should be the main priority in running a public service (even though via a private company).

• The ATP system for Train Protection should be fitted to all trains in the UK and upgraded by better systems as they become available.

• ALL current rules and regulations with regards to safety, driver tuition, signals, tracks etc should be immediately reviewed and tightened. (minimum safety rules should be akin to air travel).

• Franchises of train companies should be suspended or removed if safety requirements are not met.

• All directors of Railtrack and train operators should take responsibility for the conduct of their companies and accept the consequences that may accompany any corporate failings.

• Removal of Railtrack and train operator directors bonuses should be considered if there are dangerous incidents on the railways.

• Companies - and directors of said companies - should be banned from involvement in the railway industry if they have a poor safety record.

Name	**Address**	**Signature**

This petition will be presented to the Prime Minister, Railtrack, First Great Western and Thames Trains after the end date of 5th October 2000. Please ensure all completed forms are returned by 2nd October 2000.

Please return completed forms to

as soon as possible or Paddington Survivors Group,

Thank You For Your Support
